PRABAKARAN RAMESH

Frontend Developer

Portfolio: [Prabakaran.com](https://prabakaran.com)
github.com/prabakaranramesh
linkedin.com/in/prabakaranramesh

As a Frontend Developer with hands-on experience in React.js, Next.js, and modern UI libraries, I build responsive, user-focused web applications with clean architecture and reusable components. The aim is to improve user experience through performance-driven development while continuously improving my skills in full-stack workflows and industry best practices. I am seeking a role where I can contribute to scalable frontend solutions and collaborate effectively within a dynamic engineering team.

TECHNICAL EXPERIENCE

Software Development(Internship) / Go My Exam (Learning Management Tool)

HYSAS Technologies Private Limited

January 2024 — April 2024

Thoothukudi, Tamil Nadu

- Built a multi-tenant LMS platform for organizations to manage courses and assessments.
- Implemented role-based access for Admin, Faculty, and Student users.
- Developed modules for course creation, lesson delivery, quizzes, and progress tracking.
- Integrated dashboards for performance insights and activity monitoring.
- Enhanced user experience through responsive UI design and reusable components.

Frontend Developer / Convex - (Project Management Tool)

Hema's Enterprises Private Limited

June 2024 — Present

Cuddalore, Tamil Nadu

- Developed a full-scale project management system for tracking organizational projects.
- Implemented Milestone → Tasklist → Task → Subtask hierarchy for structured execution.
- Added predecessor-successor logic to manage task dependencies.
- Enabled visibility into team activity, task owners, and workload distribution.
- Built project-level and status-level reporting dashboards for real-time monitoring.
- Designed responsive UI layouts ensuring smooth experience across devices.

Frontend Developer / Tixie - (Ticketing Tool)

Hema's Enterprises Private Limited

June 2024 — Present

Cuddalore, Tamil Nadu

- Built a ticketing platform for organizations to raise, track, and resolve issues and requests.
- Developed the frontend with Next.js, ensuring fast, responsive, and scalable UI.
- Implemented modules for ticket creation, status updates, comments, and resolution workflow.
- Enabled real-time activity tracking using API-driven architecture.
- Designed a clean dashboard for monitoring open, in-progress, and completed tickets.

Frontend Developer / External Client Bank Detail Automation

company D

June 2025 — Present

somewhere, state

- Built a multi-role platform (HRSS, QC, HR Payroll) to manage employee onboarding and bank detail verification.
- Enabled HRSS to create employee records, enter details, and upload documentation.
- Implemented QC verification workflow to approve or return entries for correction.
- Finalized record processing through HR Payroll after all validations.
- Automated weekly/monthly report generation and email notifications for clients.
- Improved data accuracy and workflow efficiency with structured approval logic.

SKILLS

Tools and Technologies Development Workflow

React.js, Next.js, JavaScript, HTML, CSS, Material-UI, Ant Design, Redux, REST APIs, Postman, Swagger
Responsive Web Design, Component Architecture, Performance Optimization, Git, GitHub, GitLab, Agile, Waterfall

Platforms and Integration Soft Skills

API Integration, Role-Based Access, Authentication Flows, Reporting Dashboards
Problem Solving, Team Collaboration, Communication, Attention to Detail

EDUCATION

Bachelor of Engineering in Computer Science, IFET College of Engineering, Villupuram

2019 — 2023

Higher Secondary Education (HSC), State Board, Tamil Nadu

2018 — 2019

Secondary School Leaving Certificate (SSLC), State Board, Tamil Nadu

2016 — 2017

ACTIVITIES

Web And Mobile Development Internship, Cloudlogic Technology, Pondicherry

December — 2020
